- React JS
- Node JS
- Express JS
- MongoDB
- Responsive Design
- GitHub

Certificates

- Web & Mobile App Development
- Introduction to Front End Development
- React Developer

Experience

April 2024 - Present

LaunchBox Pakistan

Web Developer (Internee)

As a Web Developer (MERN) Internee, my primary responsibility is to contribute to the frontend development of company projects. This involves designing and implementing user interfaces, ensuring responsiveness and usability across various devices, and integrating APIs, state management library for efficient data flow. I work closely with the development team to translate design mockups into interactive web applications.

Jan 2024 - Mar 2024

Regex Dot Private Limited

Jr. Software Engineer (Internee)

As a Junior Software Engineer, my primary responsibilities revolved around supporting the development team in various software projects. This included assisting senior engineers in coding, debugging, and maintaining software applications. Additionally, I actively participated in team meetings to discuss project progress, provide insights, and contributed to the overall development process.

July - September 2023

Internee.pk

React Developer (Internee)

Through my virtual internship, I deepened my proficiency in JavaScript and its frameworks, mastering the intricacies of React JS and gaining fluency in backend technologies such as Node.js and Express.js. This experience equipped me with a comprehensive skill set in full-stack development, empowering me to tackle diverse challenges in software engineering.

Projects

- Restaurant Application
- Event Registration Application
- Chat Application
- Car Rental Application
- Tourism Web Application
- Furniture Web Application
